EDUCATION

full stack web devloper
Prepleaf by masai
August 2023-present

Bachelor of Science
Mds University
August 2021 - June 2024

TECHNICAL SKILLS

Redux | Node.js | Git | CSS3 | HTML5 | JavaScript | React

SOFT SKILLS

Problem Solving | Attention to Detail | Teamwork | Time Management | Effective Communication

INTERESTS

- Learnig new things
- Traveling
- Reading
- Technology

PROFESSIONAL SUMMARY

Dynamic Frontend Developer with expertise in JavaScript, React.js,Chakra ui, HTML, and CSS, capable of leveraging Generative AI to accelerate development processes. Exceptional problem-solving and collaboration skills, adept at creating responsive, high-performing web applications. Rapidly learns new technologies to enhance code scalability and user experience.

PROJECTS

1. Nykaa Clone | ⊕ | ◉
React | JavaScript | HTML5 | CSS3

- Developed a responsive and intuitive user interface with Chakra UI, ensuring a seamless user experience.
- Implemented user authentication and authorization using Firebase Authentication for secure login and registration.
- Managed client-side routing with React Router DOM, enabling smooth navigation across the application.
- Leveraged Context API for state management, ensuring efficient data sharing and synchronization.
- Implemented product browsing and cart management functionalities, enhancing the overall shopping experience.
- Deployed the application on Vercel for high availability and optimized performance.

2. Reliance digital Clone | ⊕ | ◉
JavaScript | React | HTML5 | CSS3 | Responsive Web Design

- Developed high-quality, reusable components for product listings, single product details, and cart pages, enhancing scalability.
- Implemented add-to-cart functionality with quantity increment and decrement features to improve user interaction.
- Ensured cross-browser compatibility and optimal performance across various devices by applying responsive design techniques.
- Conducted thorough testing and debugging, which resulted in a stable and reliable web application.
- Integrated frontend components seamlessly with server-side APIs, ensuring smooth data flow and functionality.
